PrettyRawPreviewVisualizeJSON

```
1 {
2   "netId": "Emp",
3   "status": "ACCEPTED",
4   "id": 1
5 }
```

I get only one scheduled job because I have changed its status in the previous request.

An endpoint to get all jobs. And now I delete it and check again.

And I get only one job which was not deleted.

Body: 400 Bad Request 93 ms 437 B

Pretty Raw Preview Visualize JSON

```
1 {
2   "timestamp": "2022-12-23T17:04:15.122+00:00",
3   "status": 400,
4   "error": "Bad Request",
5   "message": "",
6   "path": "/approve"
7 }
```

I get a bad request when I try to approve with a faculty account from EEMCS (different faculty).
